Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/537,572	Applicant(s) BELL ET AL.	
	Examiner Mark Hageman	Art Unit 3653	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 03 June 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Objections

Claims 1-36 are objected to for failing to comply with 37 CFR 1.75(i) which states, "Where a claim sets forth a plurality of elements or steps, each element or step of the claims should be separated by a line indentation." Examiner requests that the applicant reformat the claims accordingly to comply with 37 CFR 1.75(i) and to make the claims easier to read and understand.

Examiner also notes that some of the claims contain one way conditional statements. For instance claim 1 states, "...if a first number of them correspond to acceptable money items, to revert to the normal acceptance range...if a second number of them correspond to acceptable money items, to revert to the normal acceptance range again, the second number being different from the first number. Examiner notes that these limitations are not required by the claims because other possibility is not considered. What happens if the first or second numbers of items fail to correspond to acceptable items? For example a claim that states **if A then B** does not account for the **if not A** case and therefore in the not A case there is no limitation or result. Positively claiming both possible outcomes requires that claim perform some action for either possible input and therefore requires the prior art to consider both possibilities. A claims stating **if A then B and if not A then C** is only anticipated by a reference that accounts for the proper response to both the A and not A cases in the claimed manner.

Election/Restrictions

Art Unit: 3653

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-12, 25, and 31-35, drawn to a money item acceptor and method with a specific timing feature of a restricted acceptance range.

Group 2, claim(s) 13-24, drawn to a money item acceptor utilizing an internal security range.

Group 3, claim(s) 26-30 and 36, drawn to a money item acceptor and method with a focused rejection window.

2. The inventions listed as Groups 1-3 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group 1 has the special technical feature of the first and second number which are different and dictate the duration of the usage of the restricted acceptance range. Group 2 lacks the same feature of group 1 but rather includes an internal security range falling within the restricted acceptance range. Group 3 includes a focused rejection window within an acceptance range but does not have a restricted acceptance range.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Hageman whose telephone number is (571) 272-3027. The examiner can normally be reached on M-F 7:30-4:00.
